IMPORTANT
In compliance with current regulations relating to industrial property, we hereby state that the trade-marks or trade names mentioned in this document are the exclusive property of authorized manufacturers of locks and users. Said trade-marks or trade names are nominated only for the purposes of information so that any lock for which our keys are made can be rapidly identified. This document is reserved exclusively for professional key cutters who use Silca products.

Silca the New **Transponder Way**

With Silca easy, fast, secure transponder solutions

1 Customer's car key identifying and reading and SNOOP preparing procedure.

2 Detecting data. Put the SNOOP on the customer car key and turn the key twice into the car ignition.

3 Downloading detected data from SNOOP to RW4/P-BOX.

4 Customer's key reading and checking.

5 Writing Silca EHP key.

6 Cutting Silca EHP key.
