SECFCFF4CFCK4	1360	498	635	240Kg. 4 Drawer

Securikey FIRE VAULT is a range of high quality electronic digital keypad operated FIRE RESISTANT safes. These safes are 1 hour fire rated, have an electronic over-ride and are supplied with a base fixing kit. These safes have a handy key hook bar on the inside of the door. The door opens 180° for easy access.

SECURIKEY
FIRE VAULT

When looking at safes for fire protection it is important to know that no safe is fire proof. Safes only have a fire resistance. Data media corrupts at a lower temperature than paper (as low as 55°) and because of this fire safes are not suitable for data protection.

EURO GRADE RANGE OF SAFES

These safes are designed to give maximum cash and valuables cover up to £1 million stg. for jewellery using grade 5

Securikey Euro Grade safes are designed to have a light weight construction while maintaining the highest degree of security, this provides for ease of installation

There are 6 grades in the range

- Euro Grade "0" providing £6,000 stg. cash cover / £60,000 for valuables
- Euro Grade "1" providing £10,000 stg. cash cover / £100,000 for valuables
- Euro Grade "2" providing £17,500 stg. cash cover / £175,000 for valuables
- Euro Grade "3" providing £35,000 stg. cash cover / £350,000 for valuables
- Euro Grade "4" providing £60,000 stg. cash cover / £600,000 for valuables
- Euro Grade "5" providing £100,000 stg. cash cover / £1,000,000 for valuables

A cash rating is a method of classifying security safes by their security level. Manufacturers design their safes to meet various levels of security and these are designated by a cash rating from £1,000 up to £100,000

All cash ratings can be multiplied by 10 if valuables such as jewellery are being stored instead of cash e.g. a security safe with a £4,000 cash rating will cover jewellery up to £40,000

Always seek advice from your insurance company if you are not sure what level of security you require

All cover values are in sterling because Securikey and the larger insurance companies are U.K. based

In Ireland Euro equivalents are generally accepted again subject to the insurance company approval

There is a range of optional extra equipment available for Euro Grade 1 to 5 to include locking options, shelves, rotary and capsule deposits, Any additions or alterations will alter the rating for example a rotary trap can reduce insurance cover.

EURO GRADE "0" SAFES

Securikey Euro Grade "0" safes have
 2 sizes horizontal or vertical and
 2 locking options key or electronic combination
 With all 4 models the 90mm thick door is equipped with 6 x 25mm locking bolts

SECSFEG 0HK	"0" Horizontal Key	380 x 500 x 460 (H X W X D)	75kg
SECSFEG 0HZE	"0" Horizontal Electronic	380 x 500 x 460 (H X W X D)	75kg
SECSFEG 0VK	"0" Vertical Key	500 x 380 x 460 (H X W X D)	75kg
SECSFEG 0VZE	"0" Vertical Electronic	500 x 380 x 460 (H X W X D)	75kg

Available as either horizontal or vertical models the lightweight construction allows for increased installation opportunities with fixing made through twin based anchor points. The door can be opened to an angle of 200° to enable optimum access and each unit is supplied with an adjustable shelf

EURO GRADE COMPACT SAFES GRADE 1

Securikey euro grade compact safes are a range of VdS approved cash safes

These safes are lightweight making them a range that is easy to install and economically priced making them easy to sell

The Euro Grade 1 safe has solid steel sliding bolts on three sides, continuous hinge protection and a single security key lock, base fixing point and a fire-resistant seal on the door which can be opened a full 205° to enable total access. There is a choice of three locking options and a variety of fittings available including shelves which are adjustable to every 25mm

Certified according to EN 1143-1 Security Grade I
